Bath Towel made by Solaine. The heavy hotel quality bath linen made of 100% cotton (600 g/m²) radiates comfort and luxury. Super-soft, downy and comfortable. With beautiful woven band with an attractive pattern. For information: The possibilities with regards to embroidering small details in a logo (such as very small letters) are more limited in embroidery than in print. It can therefore be the case that we, after receiving your logo, advise you to adjust or enlarge the logo. This product contains the international Oeko-Tex label for textiles. It certifies that the product does not contain any harmful substances. The label looks at both natural and synthetic fibres.
