Dishwasher proof No

Whether you're on your way to work or on a day trip, a mug or bottle is always useful. An excellent time to reinforce your brand exposure with a printed thermal article. Thermos flasks and mugs are products that last a long time. Recipients take them with them to work, in the car or even on holidays. Take full advantage by printing your logo and company name on the Valby 400 ml leak-proof vacuum insulated tumbler. This insulated mug has a screw top lid with push button pour spout. The delivery is packed in a gift box. Because this thermos product is made of stainless steel, you don't have to worry about it breaking. And being so solid, it won't leak easily! With a weight of 271 grams, you have a solid product in your hands. Most thermos flasks and mugs aren't dishwasher safe. This is due to their construction and insulation. But the lid can often go in the dishwasher. You can check this in the instructions. Once you have experienced how easy a thermos is, you'll never want anything else. Your customers will experience the same with a printed thermos.
