Flashlights with a logo are very popular as promotional gifts and are often used. The Usurp mini lantern torch light is a great item that your customers, employees and suppliers will love. Includes a carabiner for easy clipping to a backpack. This flashlight draws its power from Button cell batteries included and inserted. The number of batteries used is included. Laser engraving is the technique we recommend, especially for flashlights and other tools. This is abrasion-resistant and almost indestructible. Have you found the perfect torch for your desires? Then we look forward to your order, but remember: the more you order, the lower the price. Send us your logo and you will receive a digital proof before production starts. We only start production once you have confirmed this.
