Pencils are among the most inexpensive writing instruments. But that doesn't detract from their usefulness: pencils can be handy from time to time at work, at school or in your leisure time. Mechanical pencil or conventional pencil? That usually decides the purpose. The Parker Jotter mechanical pencil with built-in eraser is the perfect pencil for everyday use. This pencil is a mechanical pencil, so basically a pencil that looks like a ballpoint pen. The pencil is delivered with a refill (0.5mm nib) and a built-in eraser under the push-button cap. It is packed in a Parker gift box. This pencil is from one of the world's best-known brands for high-quality writing instruments: Parker. The company has existed for over 130 years and regularly modernizes the range with technical or stylistic innovations. Genuine Parker pens are easily identified by the feather arrow clip. This pencil was made of Stainless Steel. No matter what budget you are planning, you are sure to find the right pencil with us. Would you like to try the Parker Jotter mechanical pencil with built-in eraser for yourself before ordering? Simply order an unprinted sample and see the quality for yourself.
