This item is printed on the on the front.

Are you looking for a promotional item that your customers or business contacts will have in mind almost every day? Then a card holder with logo is the right choice for you. RFID Visita card holder - this name says it all! Practical and with your logo, the perfect advertising medium. The material of this credit card holder is synthetic material. Most cards have so-called RFID technology, in which a chip can transmit data "contactless", as is used in many places for payment. This card case protects against unauthorized access to the card by third parties. You can get our promotional items at low prices anyway, but always remember: the more credit card cases you order, the cheaper the unit price will be.
