Everyone has a different preference when it comes to headphones. In-ear, on-ear, with bracket, wireless or true wireless. We have many very different models. TWS earbuds in UV-C sterilising charging case - earbuds to remember. These earbuds are connected wirelessly to the output device and work independently from one another. Connecting to a device is easy via Bluetooth. The connected device and the headphones can be up to 10 m apart. A fully charged battery provides 3 hours of listening pleasure. These unique design TWS earbuds are cleaned with UV-C light within the charging case eliminating up to 99,9% of the bacteria found on the earbud. UV-C wavelength 270nm-280nm. UV-C function will only work when the case is closed to avoid UV-C exposure to user. There is 1 pair additional ear tips for more comfort. Send us your logo and you will receive a digital proof before production starts. We only start production once you have confirmed this. So you are on the safe side.
