You use a printed bag more often than you'd expect. At IGO we have wide range of shopping bags you can have printed with your logo. And the Impact AWARE™ RPET 190T tote bag is ideal for your last-minute errands. No greenwashing! Tell the real story about sustainability! This tote has the AWARE™ Tracer. AWARE™ guarantees the use of genuine recycled fabric materials and claims water reduction through disruptive physical tracers and blockchain technology. Save water and use real recycled fabrics. With this carrier bag you already save 1.81 liters of water, it was made from 3 PET bottles (500ml). The bag is super light and therefore the perfect companion for every day. In addition, 2% of the proceeds from each Impact product sold are donated to Water.org. The water savings are based on numbers compared to conventional fibers. This calculated figure is based on reliable LCA data published by Textile Exchange in their 2016 Material Snapshots. Because this bag is made of recycled polyethylene terephthalate, you are assured of a quality product. Are you looking for an item you can be sure everyone will appreciate? Get shopping bags printed by IGO Promo! And because of their versatility, they are used and seen everywhere.
