And the Impact AWARE™ RPET 190T drawstring bag is ideal for your last-minute errands. No greenwashing! Tell the real story about sustainability! This gym bag has the AWARE™ Tracer. AWARE™ guarantees the use of genuine recycled fabric materials and claims water reduction through disruptive physical tracers and blockchain technology. Save water and use real recycled fabrics. With this sports bag you already save 1.41 liters of water, it was made from 2.4 PET bottles (500ml). The sports bag is super light and therefore the perfect companion every day. In addition, 2% of the proceeds from each Impact product sold are donated to Water.org. The water savings are based on numbers compared to conventional fibers. This calculated figure is based on reliable LCA data published by Textile Exchange in their 2016 Material Snapshots. Are you looking for a bag made of recycled polyethylene terephthalate? Then this is a perfect choice. Whether you give them away to your customers or employees, you'll always make a good impression with a personalized shopping bag.
