A hat with a logo is a beautiful piece of headwear that is a pleasure to wear. Have the article Hale Poly lana® beanie printed according to your wishes. The printable beanie is made of 1x1 Rib knit of 60% Poly lana® fibre and 40% Acrylic, 12 gauge. By the way, this hat was made with an AWARE™ tracer. AWARE™ guarantees that genuine recycled fabric materials have been used and that the water reduction claims are correct. This is done through disruptive physical tracers and blockchain technology. So you're proven to save water and use real recycled fabrics when you choose an Impact item. With this headwear you already save 2.7 liters of water. 2% of the proceeds from each Impact product sold are also donated to Water.org. Water saving claims are based on numbers compared to traditional fibers. This calculated figure is based on reliable LCA data published by Textile Exchange in their 2016 Material Snapshots.
