Cotton bags are used a lot and tote bags in particular are more popular than ever since the end of plastic bags. Are you looking for a cotton bag for your groceries or shopping? The popular Impact AWARE™ Recycled cotton shopper 145g is sure to be right for you. Because this bag is made of Recycled cotton with a grammage of 145 g/m², you get a sustainable article. By the way, this versatile bag was made with an AWARE™ tracer. AWARE™ guarantees that genuine recycled fabric materials (70% rCotton and 30% rPET) have been used and that the water reduction claims are correct. This is done through disruptive physical tracers and blockchain technology. So you're proven to save water and use real recycled fabrics when you choose an Impact item. With this bag you already save 860 liters of water. 2% of the revenue from each Impact product sold are also donated to Water.org. Water saving claims are based on numbers compared to traditional fibers. This calculated figure is based on reliable LCA data published by Textile Exchange in their 2016 Material Snapshots. Stand out and have this tote bag printed with your logo. Cheap cotton bags can also be a real hit. Order now and soon surprise your customers and other business contacts with your chic bags!
