

This powerful 20.000mAh power bank features a robust 65W output, making it ideal for charging laptops on the go. It includes two USB-C ports (60W & 65W max) and two USB-A ports (each 18W max), with a total max output of 65W for all ports combined. The power bank charges quickly and safely, protected against overload, over-discharge, short circuit, and over-voltage. With its high capacity and versatile charging options, it's the perfect companion for travel and outdoor adventures.
