

The Chipolo POP is a smart Bluetooth tracker that helps you quickly find all your important items – from keys and backpacks to suitcases and wallets. What makes this tracker truly special is that it is one of the few that works with both Apple's Find My network and Google's Find My Device. This allows you to locate your belongings almost anywhere in the world, even if they are out of Bluetooth range. If the item is nearby, you can make the POP ring loudly with a sound of up to 120 dB. The free accompanying app is easy to use and offers handy features such as 'Call Your Phone'. The casing is made from 50% recycled material and is IP55-rated, making it dustproof and splashproof. Thanks to Bluetooth 6.0, the tracker has a range of up to 90 meters. The Chipolo POP is lightweight, stylish and fully customisable. Designed and manufactured in Europe with attention to quality. A smart choice for those looking for convenience, reliability and a tracker that goes beyond the standard. Includes user manual.
