Diameter: 3.00

Weight: 200.00 g.

It's always convenient to have a power bank ready in this digital age. You never know when you might need to recharge your mobile phone. IGO Promo can print the PowerSound 3500 powerbank with your logo or other imprint. The moment you give it away, it immediately generates extra publicity for your company! One thing is certain, the recipient will be very happy. This power bank has a capacity of 3500 mAh. This means that a device with a battery of this size can be fully charged once. This powerbank combines a double function: charger and speaker. It can be charged via USB using a USB cable. Suitable for the most common mobile devices (with 3.5 mm jack connector). The input and output are 5V / 1A. Comes with a USB/audio cable with a standard 3.5mm plug and micro USB plug including user manual. The 2-in-1 powerbank follows European guidelines. If you divide the charge capacity of the powerbank (mAh) by the battery capacity of your mobile device (mAh), you get the approximate battery charge percentage or the possible number of charges. Packed per piece. Because this power bank is made of aluminium it is hardly susceptible to impacts and can be carried in any pocket. Thanks to the laser engraving technique, you can give this power bank a stylish print. The print is extremely durable thanks to the high wear-resistance of engraving. And if you think that printing a power bank is expensive, IGO Promo proves otherwise. We can print power banks cheaply and with outstanding quality.
